

DRIVE PROFITABILITY THROUGH STAFF LEASING

Extend your capability & reach with huge cost savings.

HEALTHSCOPE
SPECIALIST OFFSHORING

EXTEND CAPABILITY & REACH

- Allows you to grow if you can't find experienced health staff in the United States.
- Allows more strategic flexibility if you want to push into a new area of business and need qualified staff.

YOUR OWN DEDICATED TEAM

- We use experienced registered nurses (RN's) to fill all clinical and non-clinical back office tasks except collections.
- Grow out a dedicated team built to suit your needs, enjoy growth in productivity as the team expands knowledge and experience.
- For best results implement a cross-training program. Learning new tasks keeps employees motivated, reducing churn and giving you more flexibility to meet operational challenges.

YOU MAINTAIN CONTROL

- We recruit, legally hire staff, and manage all HR issues. We provide the office space and the IT infrastructure.
- We deliver basic training (HIPAA/HITECH etc), you deliver task-related training as required.
- You manage productivity and quality directly with your team.

BIG SAVINGS

- Expect payroll savings of 50% or more (salary and on-costs). Overhead savings achievable through reduction in rent, utilities, and office fit-out/IT CapEx.
- Your offshore team will have the same or higher level of productivity and quality as your existing US-based staff.
- Reduce potential employee-related lawsuit liability.
